EXPERIENCE

Sweep Drones Limited — Frontend Developer

February 2024 - January 2025

Collaborated with cross-functional teams to translate UI/UX designs into responsive, performant web applications. Focused on building intuitive interfaces with clean, maintainable code while adhering to accessibility standards.

EDUCATION

Obafemi Awolowo University — Computer science with Economics

JAN 2022 - Present

PROJECTS

Multi-step Form — NextJS, TypeScript, Zod

This project is a dynamic multi-step form using Next.js and Zod, featuring step navigation, real-time pricing updates, and cross-step state persistence, tackling challenges in dynamic validation and state transitions to ensure a smooth user experience.

REST Countries API — NextJS, TypeScript, REST API

This is a responsive country information app using Next.js and the REST Countries API, featuring dynamic search/filtering, dark mode toggle, and detailed country profiles, solving challenges in API integration and state management to deliver a fast, intuitive interface for exploring global data.

Positivus — NextJS, TypeScript, CSS Animations

This is a responsive landing page using Next.js, showcasing services, team bios, and contact forms—optimizing UI/UX for conversions and brand consistency through dynamic animations and clean code.
